Tom Harrington
VP/ Director of Sales
Aeris Atlantic
190 South Main Street
Ambler, PA 19002

Dear Tom,

I want to thank you for introducing Wyeth Pharmaceuticals to the AerisGuard line of products. The results have been impressive. We began using the coil cleaner and treatment last fall, and the impact on Indoor Air Quality and HVAC system performance has been very positive. Recently we have used the surface cleaner and treatment with excellent results.

Employee environmental complaints in historically troublesome areas have dwindled and there has been significant impact on energy consumption because the coils transfer heat more efficiently. The accreditation training was informative and our HVAC mechanics better understand the importance of coil maintenance.

I will recommend that Wyeth place a line-item in our budget for the continued purchase of the AerisGuard products. Again, thanks and feel free to pass along this endorsement.

Regards,

Joe McKenzie
HVAC Supervisor
